

Anishinabe News

SEPTEMBER

The Saginaw Chippewa Indian Tribe offers a program to all Native students, members and descendants of all tribes. Our program assists students with tutoring, basic daily school supplies if needed, cultural presentations, attendance incentives, and many more ways throughout your student's academic career.

There are Youth Achievement Advisors and Youth Empowerment Aide's in all MPPS, Renaissance, Shepherd, and Beal City schools. In order for us to be able to work with your child through this program we need paperwork filled out consisting of: Title VI form, Johnson O'Malley form, and a Release of Information.. Many of the students already have this paperwork completed, if your student does not I have enclosed it with this newsletter.

I will be mailing a newsletter home every month that will include students with perfect attendance, important events happening in the community and at school, dates when school is closed, students birthdays, and many other important happening throughout the school year.

Kerry, Tonya, and I look forward to working with the children this school year.

Please contact me at kklouse@sagchip if you have any questions or concerns throughout the school year.
